SALUTATIONS

Shri. R.P. KRISHNAMMACHARI JI, GONE BUT NOT FORGOTTEN

Most revered Chari Ji,

Significantly few people have influenced many lives the way you did. Many souls weep with grief. Still we cannot believe that you are no more. There are heartfelt tributes from infinite number of downtrodden in the society who were uplifted by you.

"If tears could build a stairway and memories a lane, we would walk right upto the Heaven and bring you back to Single Teacher Schools again".

You are the repository of immaculate kindness, a compendium of colossal endurance and a fountain head of gentility and generosity. Quality education for the rural student was your dream. Women empowerment was your vision. Skill Development for the youth was your mission. Hinduism was not a religion for you. HINDUISM was your way of Life. Did you become the Lord's favorite..? HE had taken you with HIM so soon.

Keep blessing us from the Heaven above. We all together will try to fulfill your dreams for the society. We will carry your memories always in all ways.

CHARI SIR YOU ARE IRREPLACEABLE ON EARTH

MAY YOUR SOUL REST IN PEACE.

SWACHH BHARAT ABHIYAN - CONSTRUCTION OF TOILET CUM BATHROOMS

SVRDS Started construction of Toilet cum Bathrooms at free of cost to the poor villagers having more girl children in April 2015 itself. Received appreciation letters 3 times from the Honourable Prime Minister of India Shri. Narendra Modi Ji.

Now we are entering into 10th year of this project and till March 31st 2024 we have constructed **3533 Toilet cum Bathrooms** at the cost of **Rs. 1766.50 Lakhs** and handed over to the beneficiaries. From this around **18,660** persons started living in villages with pride to have their own Toilet cum Bathrooms constructed around **40 Sq.ft.**, area like in cities with Tiles.

Highlight of this project is when we constructed 100 plus Toilet cum bathrooms in Manjumalai area near Anjetty, Hosur had tough time in transporting construction materials from plain land to the hill area where the tribal are living in small hamlets. For a few places the materials were carried on head for nearly 6 to 7 kms as there are no proper motorable roads. The beneficiaries were very happy to use the facilities because they are the first generation seeing this type of constructions. Especially that area is famous for more forest animals mainly elephants movement and with fear only the ladies were forced to go interior forest in groups to complete the natural calls and now feel so happy & safe .
